

IntegSec PTaaS delivers continuous penetration testing through a flexible subscription model. Get enterprise-grade security testing from certified experts without the overhead of building an in-house team. Start testing next business day, receive findings in days, and verify your fixes with unlimited retesting.

TESTING COVERAGE

- > External & Internal Network Penetration Testing
- > Web Application & API Security Testing
- > Cloud Security (AWS, Azure, GCP)
- > Mobile Application Testing (IOS/Android)
- > Secure Code Review
- > Social Engineering & Phishing Simulations
- > Wireless Network Testing
- > IoT/Embedded Device Testing

KEY BENEFITS

- > Next business day onboarding - start testing immediately
- > Unlimited retesting after remediation
- > Zero false positives - all findings validated
- > Dedicated team learns your environment
- > Real-time portal with findings & trends
- > Compliance-ready reports included
- > Month-to-month flexibility, no lock-in
- > Predictable monthly cost
