

# Security Services Overview

Choose the Right Protection for Your Organization

# Three Services, One Security Partner

---

## External Vulnerability Assessment

**From \$299/month**

Continuous monthly scanning of your internet-facing assets with expert validation. Know what's exposed on your perimeter.

Best for: Ongoing perimeter monitoring

## Pentest as a Service

**From \$6,999/month**

Deep-dive penetration testing of applications, networks, and cloud environments by certified experts. Find exploitable vulnerabilities.

Best for: Finding security holes

## Red Team & Adversary Simulation

**From \$699/month**

Real-world attack simulation to test your detection and response capabilities using MITRE ATT&CK framework.

Best for: Testing detection & response

# Which Service Do You Need?

---

"We need to know  
what's exposed"

**Vulnerability  
Assessment**

"We need to find  
security holes"

**PTaaS**

"Can we detect  
real attacks?"

**Red Team**

Not sure? Many organizations combine services for comprehensive coverage.

# Security Maturity Journey

## FOUNDATION

### Vuln Assessment

Know your exposure. Build remediation processes. Start here.

## GROWTH

### PTaaS

Go deeper. Find what scanners miss. Test applications thoroughly.

## ADVANCED

### Red Team

Test defenses. Validate your SOC. Train your team under fire.

# Feature Comparison

Capability	Vuln Assessment	PTaaS	Red Team
Primary Goal	Find known vulnerabilities	Find exploitable weaknesses	Test detection & response
Testing Approach	Automated + validation	Manual expert testing	Adversary simulation
Scope	External perimeter	Apps, networks, cloud	Full org (people, process, tech)
Social Engineering	—	Optional	✓ Included
Entry Price	\$299/mo	\$6,999/mo	\$699/mo

# Common Use Cases

## Compliance Requirements

Need to satisfy SOC 2, PCI DSS, HIPAA, or cyber insurance requirements with regular assessments.

Vuln Assessment + PTaaS

## Launching New Products

Building or updating applications and need security testing before release.

PTaaS

## Validating Security Investments

Deployed EDR, SIEM, or SOC and want to verify they actually work.

Red Team

## No Security Staff

Small IT team handling security needs expert support for ongoing protection.

Vuln Assessment

## Board Reporting

Executives need clear visibility into security posture and risk.

Red Team + PTaaS

## Cloud Migration

Moving to AWS, Azure, or GCP and need to ensure secure configuration.

PTaaS

# Pricing Overview

## Vuln Assessment

**\$299**

per month (1-5 IPs)

- > Monthly automated scans
- > Expert validation
- > Zero false positives
- > Compliance reports
- > Unlimited retests

## PTaaS

**\$6,999**

per month (Starter)

- > Certified expert testers
- > Next business day onboarding
- > Real-time findings portal
- > Unlimited retesting
- > Compliance support

## Red Team

**\$699**

per month (Subscription)

- > MITRE ATT&CK aligned
- > AI + human operators
- > Detection gap analysis
- > Executive reporting
- > Remediation support

# Why IntegSec?

---

**0**

False Positives

Every finding validated by  
experts

**24h**

Onboarding

Start testing immediately

**∞**

Retests

Verify your fixes included

**1**

Partner

All services under one roof

# Compliance Frameworks Supported

---

## **SOC 2**

Type I & II audit support with evidence collection and continuous monitoring.

## **PCI DSS**

Quarterly scanning and annual penetration testing requirements.

## **HIPAA**

Security risk assessments and technical safeguard validation.

## **ISO 27001**

Control testing and continuous improvement evidence.

## **NIST CSF**

Framework alignment and maturity assessments.

## **Cyber Insurance**

Policy requirement documentation and evidence.
